

„**SECURITY AND WARMTH**“ is the corporate motto of the leading regional manufacturer of stoves, furnaces and fireplaces, the „**ALFA-PLAM**“ company from Vranje. These two, so simple and easy to understand, and yet committing words, represent in the very best way the manufacturer and its products.

By carefully adjusting to the needs of the customers, which are prescribed by strict standards for this kind of products, „ALFA-PLAM“ formed a rich offer of gas ranges, with the possibility of connection to a chimney or to a wall. As it is the case with all other company's products, special attention is payed to pre-selling control, tests, obtaining the proper certificates, at home, as well as abroad. The security of the working process of the furnaces that heat spaces from 15 to 55 m², is accomplished by gas regulator EUROSIT (the manufacturer: SIT from Padova, Italy). Burners manufactured in a famous Italian firm WORGAS from Modena, are incorporated in the furnaces. The final assembly, starting, using and maintenance manual, together with high quality post – selling support, make gas ranges simple, reliable, economical and functional products. Maybe this is the exact reason why these ranges, type „MIDI LUX“ or „PANORAMIK 9“ are considered in many families as members of the household.

The wisdom of choosing „ALFA-PLAM“ gas ranges is put in the best way with these words:

„**A CHOICE FOR THE FUTURE!**“

ALFA PLAM

Metal industry „ALFA-PLAM“ A.D.
17500 Vranje, Radnička 1; P.O. box 85;
Central (+381) 17 421-121, (+381) 17 421-122;
Export-import: (+381) 17 422-751; Fax: (+381) 17 424-808

ranges*

ALFA PLAM

Gas ranges

MIDI LUX

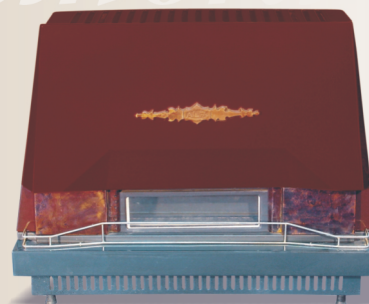

Technical characteristics

Nominal heating power	7 KW
The dimensions of the furnace(W x D x H)	750 x 257 x 690 mm
Utility degree	81 %
Kind of fuel	natural gas
The connection gas pressure	20 mbar
Heating surface	33-44 m ²
Weight	30 kg

Gas ranges

PANORAMIK-9

WALL GAS RANGE MF

Technical characteristics

Technical characteristics	PANORAMIK - 9	MF
Nominal heating power	9KW	6 KW
The dimensions of the furnace (WxDxH)	870x310x645mm	900x400x790mm
Utility degree	88 %	86 %
Kind of fuel	natural gas	natural gas
The connection gas pressure	20 mbar	20 mbar
Heating surface	44-55 m ²	30-36 m ²
Weight	33,5 kg	35 kg

ALFA 9

Technical characteristics

Nominal heating power	9 KW
The dimensions of the furnace(W x D x H)	796 x 285 x 645 mm
Utility degree	84 %
Kind of fuel	natural gas
The connection gas pressure	20 mbar
Heating surface	44-55 m ²
Weight	32,5 kg

WALL GAS RANGE 3F

Technical characteristics

Nominal heating power	3 KW
The dimensions of the furnace(W x D x H)	450 x 220 x 720 mm
Utility degree	82 %
Kind of fuel	natural gas
The connection gas pressure	20 mbar
Heating surface	15-18 m ²
Weight	20 kg
